region of Poland

**24/7**  
Service Support

**1500+**  
employees

We offer short-, medium-, and long-term rentals. Our extensive service network ensures easy maintenance and lower repair costs.

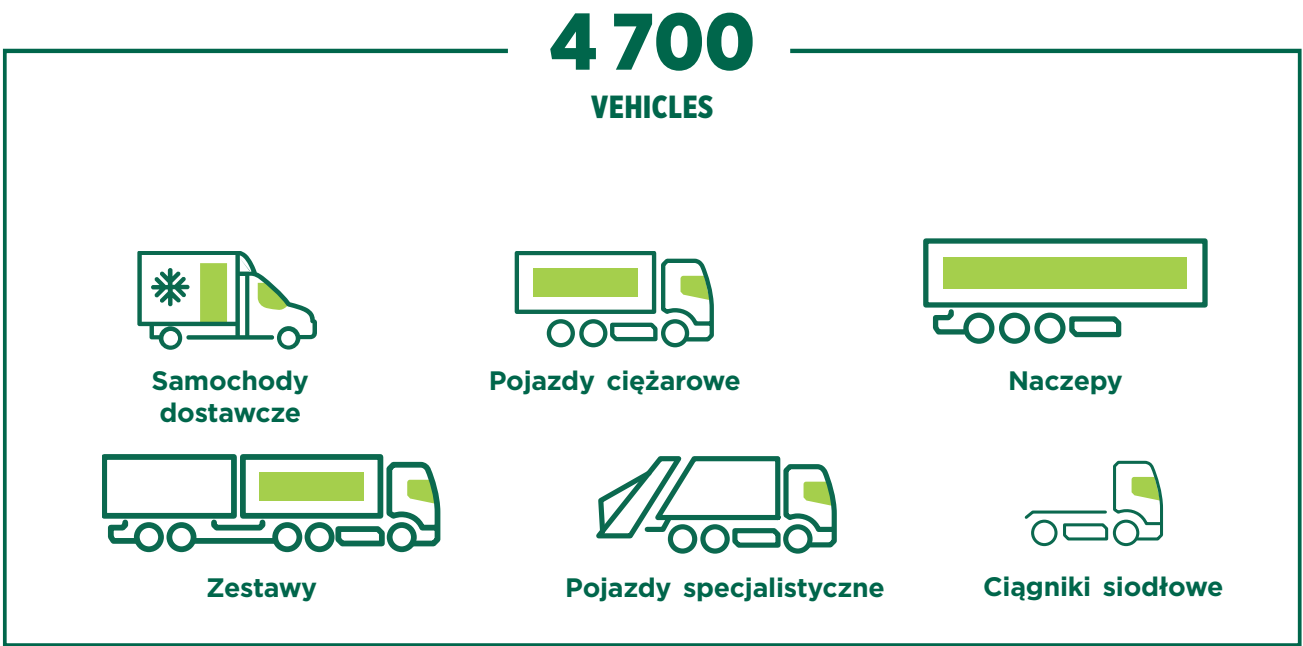

# 02

## OUR FLEET

One of the most modern fleets in Poland.

TRUCK CARE operates a fleet of over 4,700 commercial vehicles across various segments and brands – trucks, vans, trailers, and specialist vehicles.

Our fleet, regularly serviced and inspected at authorized service centers, includes vehicles of various payload capacities and applications. This allows us to respond quickly to customer needs and support their business operations.

Additionally, when needed, we provide the option to rent vehicles adapted to specific customer requirements – for example, equipped with hydraulic loading systems.

A major advantage is our extensive sales and service network across the entire country, where dedicated rental consultants are available to assist our clients.

## RENTAL

Comprehensive, safe, and modern vehicle rental solutions.

**TRUCK CARE** offers comprehensive, safe, and modern commercial vehicle rental services designed for the transport business.

Our short-, medium-, and long-term rental options are the perfect response to sudden demand — even in companies with large, developed fleets.

### Short-Term Rental

**from 1 to 45 days**

Commercial vehicles from various segments and brands, regularly serviced and inspected at authorized service centers — available for rental from just one day.

### Medium-Term Rental

**from 2 to 12 months**

Commercial vehicles from various segments and brands, available immediately with a fixed monthly subscription, no extra charges, and a full package of additional services.

### Long-Term Rental

Commercial vehicles from various segments and brands, available immediately with a fixed monthly subscription, no extra charges, and a full package of additional services.

### What are the benefits of vehicle rental?

#### Time and cost savings

You manage your company and handle new orders while we take care of your fleet and its service. Renting has never been this easy.

#### Preserving investment capacity

By renting vehicles, you don't tie up your capital and you avoid worrying about depreciation. It's a safe solution if you're planning future investments.

#### Expert advice from TRUCK CARE specialists

We'll help you choose vehicles tailored to your business needs.

#### Easier company budget management

With rental, your operating costs are fixed, planned, and agreed in advance under the contract.

#### Optimized job management

Rental is a great business solution in a fast-changing market.

#### After-sales support

You don't incur any extra costs related to fleet maintenance — TRUCK CARE handles all service operations.

## DELIVERY VEHICLE RENTAL

Delivery vehicles offered by TRUCK CARE provide a wide range of possibilities. Most importantly, we offer an extensive product lineup and a full range of services essential for the operation of distribution vehicles.

Box Van

Curtainsider

Open Platform

Refrigerated / Insulated Van

Container Truck

Other Types

### Our offer includes, among others:

- Refrigerated vehicles, providing proper conditions for products requiring transport in controlled temperatures.
- Box vans and containers, ideal for urban distribution.
- Open platforms, best suited for transporting goods resistant to weather conditions.
- And many other options tailored to your individual needs.

In this segment, we offer our clients delivery vehicles such as: IVECO Daily, MAN TGE, Renault Master, and Mercedes-Benz Sprinter

### Wypożyczenie pojazdów dostawczych:

- Air conditioning
- Digital MP3 radio with Bluetooth, USB/AUX
- Steering wheel with radio control buttons
- Power windows
- Heated and electrically adjustable side mirrors
- Driver airbag
- Front fog lights
- Remote central locking, alarm, and immobilizer

### Available Rental Terms:

- Short-term
- Mid-term
- Long-term

## Tractor Unit Rental

We operate one of the largest tractor unit rental fleets in Poland and Europe. We focus on proven, top-quality solutions — that's why we offer our clients well-known brands and models that guarantee top-level service for transport tasks.

### Available brands:

- DAF XF tractors
- MAN TGX tractors
- Mercedes-Benz Actros tractors
- IVECO S-Way and S-Way LNG tractors
- Volvo FH tractors

### Available for:

- Short-term rental
- Mid-term rental
- Long-term rental

## Specialist Vehicle Rental

Waste Collection Vehicles

Hooklift Trucks

Skip Loader Trucks

TRUCK CARE offers rental of municipal vehicles suitable for operations in any city. The available vehicles are based on reliable and widely recognized truck models such as MERCEDES, VOLVO, MAN, DAF, and SCANIA. These vehicles offer high utility and are perfect for municipal tasks, helping to keep cities clean and efficient. To meet the highest ecological standards, we also provide vehicles powered by CNG (Compressed Natural Gas).

Our waste collection vehicles offer bodies with capacities ranging from 7 m<sup>2</sup> to 22 m<sup>2</sup>, and our hooklift and skip loader trucks have lifting capacities from 5 to 30 tons.

### Available for:

- Long-term rental

## TRAILER RENTAL

Curtain trailers, refrigerated trailers, tankers, container chassis. We focus on providing comprehensive support for clients in the transport industry, which is why our offer includes a wide selection of trailers.

Curtain Trailers

Refrigerated Trailers

Tanker Trailers

We offer the most popular trailer types used in transport — curtain trailers, refrigerated trailers for controlled temperature transport, and specialized trailers of all kinds – tankers, silos, tippers, and container chassis.

**At TRUCK CARE, we offer trailers from well-known manufacturers we've worked with for years – including KOEGEL, SCHMITZ, and KRONE.**

Available for rental:

- Short-term
- Medium-term
- Long-term

## Truck Rental

Among the trucks in our rental offer, we provide proven distribution models. We focus on leading truck brands like DAF, MAN, IVECO, VOLVO, and Mercedes-Benz – models known for their durability, driver comfort, and optimal payload capacity while maintaining low unladen weight. We offer two- and three-axle trucks with various body configurations.

**In this segment, we offer trucks such as DAF LF, MAN TGL, Fuso Canter, and IVECO Eurocargo.**

Available for rental:

- Short-term
- Medium-term
- Long-term

## Combination Vehicle Rental

We specialize in volume transport sets and trucks equipped with BDF systems. Volume sets are ideal for transporting bulky goods such as styrofoam, windows, or car parts in special containers. Choosing BDF systems enables the transport of various types of loads without needing to expand or swap the fleet. This solution also allows for better use of existing equipment.

Available for rental:

- Long-term

**Our advantage is that we are a multi-product provider.**

We have the flexibility — if a particular brand is unable to deliver a specific vehicle, we can replace it with a vehicle from another manufacturer. Thanks to this, our clients have practically immediate access to vehicles, allowing them to fulfill contracts and generate income. We currently operate one of the most modern and largest fleets of commercial vehicles in this part of Europe – over 4,700 vehicles.

**All of this allows us to meet our clients' needs, so they can run their businesses freely and efficiently, and fulfill their contracts.**

# 05

## Service Support

24/7 Service Support

We understand the challenges of the transport industry and how critical unexpected breakdowns on the road can be. That's why TRUCK CARE's strength lies in its 24/7 service support. Through collaboration with a network of authorized service providers, our clients have continuous access to repair services included in their contract. We offer full support regardless of the situation or time of day.

Moreover, we cooperate with service partners across Europe, ensuring 24/7 fleet support no matter the operational route of your company.

### Key Benefits of TRUCK CARE Service Support:

- Round-the-Clock Care: Renting a vehicle from our fleet means 24/7 support every day of the week. You can always count on us in case of a breakdown.
- Rapid Response: Whether it's a mechanical failure or tire issue, our operators dispatch assistance exactly where it's needed—fast.
- Professionalism and Experience: Our team of specialists is ready to provide guidance and help in any situation.

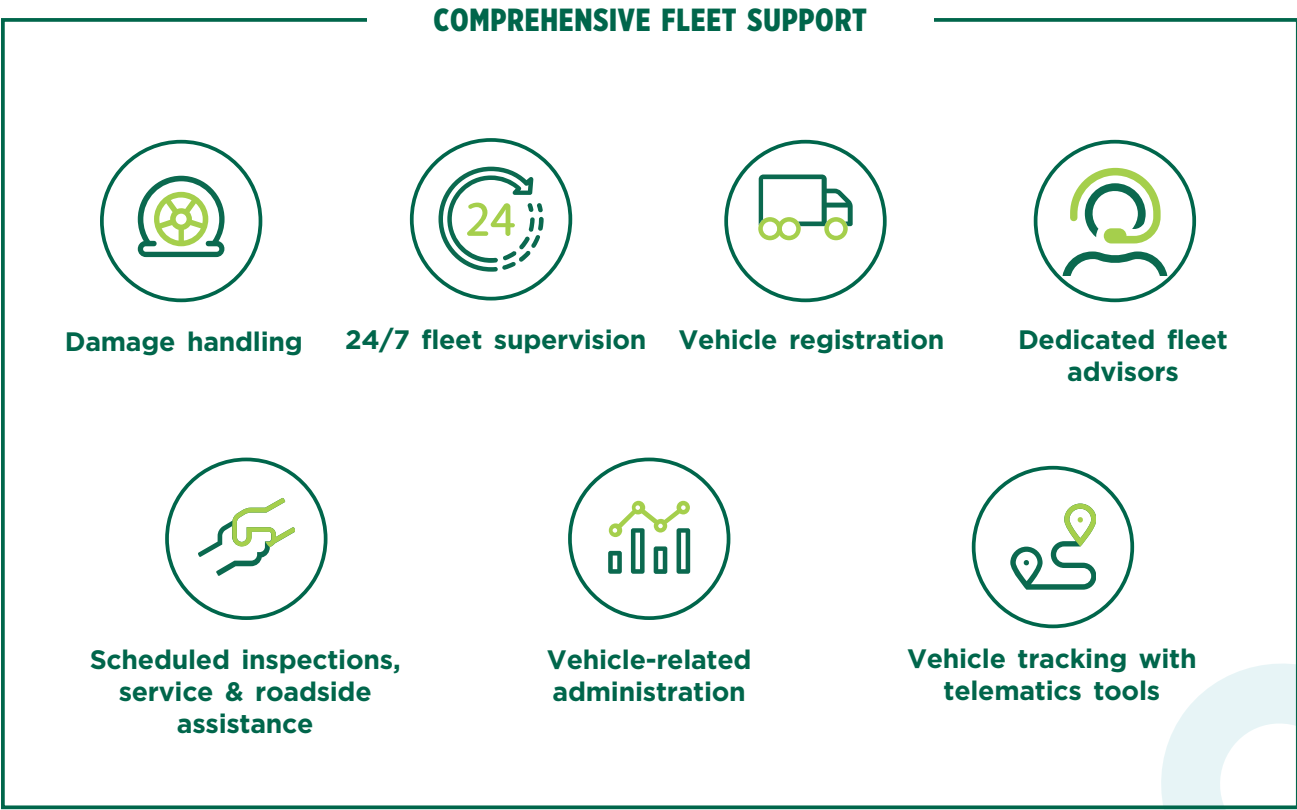

For service support and questions, please contact our hotline.

# 06

## FLEET MANAGEMENT

We manage not only vehicles rented from TRUCK CARE but also your entire fleet.

TRUCK CARE rental is not just about vehicles and services under the contract, such as maintenance or insurance. We go a step further and offer our clients comprehensive fleet management services. We provide complete fleet support — including for vehicles not covered by a TRUCK CARE rental contract.

### Why entrust your fleet to us?

- Save time, human resources, and financial costs
- One comprehensive service on a single invoice
- Comfort and simplicity in business operations
- Offload operational tasks, especially administrative ones
- Combine with vehicle rental services
- More time to grow and manage your business

# 07

## VEHICLE RETURNS

We aim to simplify return procedures and help reduce return costs.

A key aspect of vehicle rental is minimizing costs and reducing the time our clients spend on the return process at the end of the contract. We aim to simplify procedures and advise on how to use rented vehicles economically and safely.

At TRUCK CARE, we value clear and simple cooperation terms — including when it comes to vehicle returns.

### 8 SIMPLE RULES FOR VEHICLE RETURN

The vehicle must be free from any mechanical damage not resulting from normal wear and tear.

The vehicle must have all factory equipment included.

The vehicle must be clean both inside and outside.

The fuel level must be more than 5%.

All customer logos and markings must be removed without leaving visible traces on the paintwork.

The vehicle must include all documents in usable condition.

Tires must meet the vehicle's specifications and have no more than 50% wear.

The vehicle must be returned to the location specified in the rental agreement.

We care about making the return process seamless for our clients, which is why in a dedicated brochure we outline how the returned vehicle should look at the end of the contract.

# 08

## Green Truck Care

**It's no coincidence that the leading color of TRUCK CARE is green. Environmental care is an absolute priority – for us, and for our growing number of clients. This responsibility is reflected not only in the daily habits of our team but also in our increasingly rich offer of eco-friendly transport solutions.**

### GREEN TRUCK CARE

With transport companies looking for ways to reduce their environmental impact, we are continuously expanding our offer to include more vehicles powered by alternative fuels – CNG, LNG, as well as electricity. One such example is the IVECO Daily Hi-Matic Natural Power CNG, powered by natural gas, which is increasingly chosen by municipal service providers as well as companies involved in local distribution. For companies seeking an eco-friendly vehicle in the heavy-duty segment, we offer the IVECO S-WAY Natural Power – a reliable and comfortable truck powered by natural gas. It is the only LNG-powered truck on the market offering a range of up to 1,600 kilometers.

Our offer also includes electric Ford E-Transit delivery vehicles with refrigerated bodies, ideal for operations in low-emission zones and urban distribution.

Retreaded tires, available in our TRUCK CARE fleet, are a solution firmly embedded in our sustainable development strategy. Their production requires up to 70% less crude oil and results in 80% lower CO<sub>2</sub> emissions compared to the manufacturing of new tires. At the same time, they provide durability and driving performance comparable to brand-new products.

That's why our goal is to consistently expand the availability of retreaded tires in the TRUCK CARE offer.
